

I do not believe that FCC has ever regulated content except for offensive material ala Howard Stern. In fact you have a history of requiring national broadcasting systems to meet minimum standards of local content. Now you are thinking of reversing this stance and telling a new spectrum, albeit the same audio medium of AM and FM, that the rules are changing. Please reject this argument as hipocritical and reject petition 04-160
I pay for the service and have been a user for 2.5 years. I like the additional value of the continuous news and weather channels. AM & FM formats will give me this information no more than 4 times per hour.
